**Please complete every question and then press "Done"**

\* 1. What is your juror number (on the inside cover of your binder)?

\* 2. What are your initials?

\* 3. As you may know, different government departments and services collect data about individuals, for example your tax records and health records. People have different views on how much of this information should be shared within government. Data sharing can bring benefits, such as finding more effective medical treatments, using information about local communities to plan local schools or roads etc. But some people worry that data sharing will be a risk to their privacy and security, by linking different types of data together and potentially allowing them to be identified. Overall, which of the following statements is closest to your view?

a) "We should share all the data we can because it benefits the services and me – as long as I can opt out if I choose"

b) "We should not share data as the risks to people's privacy and security outweigh the benefits"

- Agree much more with a) than with b)
